Alphabet Cushions

Elsie Dodds Alphabet Range...

elsie
dodds

Thirteen cushions designed for children and adults to share and enjoy, to encourage curious natures and stimulate imaginations.

Each cushion has a vibrant graphic print on the front featuring an array of things that begin with the same letter with the corresponding upper and lower case letters printed on the back.

The alphabet designs are inspired by a way to learn through association, and there is fun to be had finding all that is hidden in the patterns and spelling as many words with a chosen set of cushions.
